

## REMARKS

Reconsideration of this application is requested in view of the amendments to the specification and claims and the remarks presented herein.

The claims in the application are claims 1 to 11, 13 to 18 and 27, all other claims having been cancelled.

The Examiner indicated that the response last of record was not responsive to the last office action. The present amendment is being submitted in order to obviate the Examiner's objections thereto. Applicants believe that the amendment to claim 5 obviates the Examiner's objection thereto and the phrase "(412 AA)" does not now appear in the claims. With respect to point 7 of the office action, it is believed that claim 8 as amended is free of the Examiner's objection. With respect to point 8, it is believed that the amendment to claim 11 obviates this rejection. Therefore, it is believed that the present amendment is fully responsive to the outstanding office action and favorable reconsideration of the application is requested.

Respectfully submitted,  
Muserlian, Lucas and Mercanti
